## Verifications of FLEGT licences and shipments carried out

---

\*80 Did you carry out any additional verification checks of FLEGT licences or shipments (including exchange of information with e.g. Indonesia's Licence Information Units (LIU), physical inspections etc.) in the reporting period?

- Yes  
 No

\*81 For how many FLEGT licences were additional verification checks carried out in the reporting period?

100

\*82 Are FLEGT licences checked against the FLEGT licence information in SILK?

- Yes  
 No  
 Sometimes

83 Please provide feedback on your communication with the competent authority(ies) in each VPA partner county (e.g. Indonesia's Licence Information Units (LIU))

The response time of the LIU has improved and is now often within the 21 day period mentioned in the VPA. Clarity of the answers needs further attention from both sides. The exchange table does help in this matter.

We contacted LUU in total 6 times in 2022.

\*84 How many physical inspections of shipments were carried out in the reporting period? Please specify how many.

69

\*85 Where physical inspection was performed, how many shipments did not match the details on the FLEGT licence? Please specify how many.

## Fees for the processing of the FLEGT licences

---

\*88 Do importers need to pay fees for the processing of the FLEGT licences?

- Yes  
 No

## Other Implementing measures

---

92 Please provide feedback on your collaboration with other CAs and the European Commission.

There is regular contact between CA's and with the commission to coordinate on issues and clarify certain cases.

93 Please provide any other information, implementing measures or open issues that you consider that may be of interest to other Member States and/or the Commission.

Users can attach files and URLs to this question.

Customs has run a profile on the use of Y057. The correct use of this code was checked in a number of cases and in some instances this led to a new Customs declarations and the presentation of a valid FLEGT licence. In some cases the use of Y057 was correct.

Also the use of the correct HS codes and the match between codes used in Indonesia and the EU remains an issue we keep working on.

Reasons for the licences received by the NVWA and licences cleared by customs not totally matching are:

- End of year trade
- Storage in a customs warehouse
- Monthly declarants, these are attached in an excel file ( GPA)

Access to SILK for all destination countries, instead just for licences destined for the Netherlands would be an improvement.

Then number (100) mentioned in question 81 is an estimation. We do not register how often we do additional checks on licences or declarations.

Importers have the possibility to do a quarterly declaration instead of per shipment. This data is included below.
